

## **Brittany Gill**

Brittany grew up in the dairy state, Wisconsin, but milked her first cow and learned the art of cheese making here in Maine. She has taught cheese making and lacto-fermenting classes at venues such as Medomak Family Summer Camp, Rural Living Days, Bath Vocational High School, and the Deer Isle Hostel. She teaches because she loves to share the joy of discovery. When not gathering from farm, field or forest for making food, medicine, or craft, you will probably find her doing the dishes.
