

## **Create a Website Using a Simple Text Editor**

**Instructor:** [John Favreau](#)

In this 9 hour class over 6 consecutive Thursday evenings, you will learn how to create and maintain your own website using HTML coding in a simple text editor. There will be no need to purchase expensive website development software. The course will cover the following:

- Week 1 – Understanding the language of the Internet and introduction to HTML formatting commands
- Week 2 – How to program tables and table rows
- Week 3 – How to insert images and hyperlinks
- Week 4 – How to insert drop down menus and build multiple pages
- Week 5 – How to integrate Paypal for online purchases
- Week 6 – Finding a web host and putting it all together

At the completion of this class, you will have developed your own working website, and you'll be prepared to get working live online. You do not need any previous programming experience. Anyone can learn this skill.

<b><u>Required Supplies List:</u></b>	A laptop computer with WiFi
<b><u>Minimum Class Size:</u></b>	2
<b><u>Maximum Class Size:</u></b>	8
<b><u>Minimum Age:</u></b>	14
<b><u>Course Dates &amp; Times:</u></b>	6 consecutive Wednesday evenings from 6:30pm to 8:00pm beginning on January 11 <sup>th</sup> , ending February 15 <sup>th</sup> , 2012
<b><u>Tuition Price:</u></b>	\$105 per person
<b><u>Total Course Price:</u></b>	\$105 per person

**Deposit due upon registration:**

\$75

**Registration Deadlines:**

Thursday, January 5<sup>th</sup>, 2012
