

April 2008: New permaculture garden being built.

August 2008: Same garden using no-dig permaculture methods.

No-Dig, Weed-Free Garden Beds

Instructor: [Lisa Fernandes](#)

In a permaculture system, fall is an excellent time to build your no-dig garden beds for next year's planting. Come learn this technique which could revolutionize the way you garden...

In this course you will:

- Learn about the best and easiest ways to create living, fertile soils.
- Build garden beds any size or shape using materials from your home or neighborhood.
- Control weeds and minimize the need for irrigation.
- Become ready to stop digging and tilling or create gardens where digging and tilling are not possible.
- Turn lawn or weedy areas into productive gardens.

This course includes a classroom segment with images and handouts followed by a hands-on exercise in creating gardens using the no-dig method.

Supplies List:

Notebook & Pen
Work Shoes
Work Gloves
Clothes to get dirty (layered for weather)

Minimum Class Size: 10
